CONTACT INFO

Hopkins Center Staff

- **Senior Production Manager:** Keely Ayres (603) 646-0971
- **Production Manager:** Todd Campbell (603) 646-3224
- **Production Manager:** Mark Hanneman (603) 646-9368
- **Production Office:** (603) 646-1661
- **Programming Office:** (603) 646-3453
- **Events Office:** (603) 646-0972

Addresses

**Mail / FedEx / UPS Shipping Address**
8 East Wheelock St
Lower Level Wilson Hall #6041
Hanover NH 03755

**Physical Street Address (Hopkins Center for the Arts Public Entrance)**
4 East Wheelock St
Hanover NH 03755

Directions to Moore Theater Loading Dock

*From Interstate 89:*
Take exit 18 and follow route 120 north for about 6 miles into Hanover. At the traffic light adjacent to the Mobil Station, bear on Lebanon St. Go about 1/2 mile, the Moore Theater loading dock is in the parking area on your right immediately. Entrance is on your right at the base of the Citizen’s Bank sign. After entering the parking lot proceed up the incline to the top and look for a garage door in the farthest right hand corner of lot at the end of a long covered walkway/driveway.

*From Interstate 91:*
Take exit 13 and follow signs to Hanover and Dartmouth College. Take a right at the second light on Main St. At the next light take a left on Lebanon St and then another immediate left into a parking area at the base of the Citizen’s Bank sign. After entering the parking lot proceed up the incline to the top and look for a garage door in the farthest right hand corner of the lot at the end of a long covered walkway/driveway.

Best address to use to find the driveway on Google Maps is:
12 Lebanon St, Hanover NH 03755.
General Information

Reference pictures can be viewed here.

Seating Capacity:
480 + 1 Wheelchair spot
Orchestra: 292 + 1 Wheelchair spot.
Forestage/Orchestra Pit: 52
Balcony: 136

Theatre Access:
Loading Door: 7'-11"H x 8'-6"W
Door Access: Must back up ramped drive to street level dock.
Loading Dock: Truck unloading is at street level. No truck ramp is available.
Access to stage: Same level as Door, 150 feet to stage from truck unloading point.
Trailer Storage: At Thompson Ice Arena parking lot across campus (10 min walk)

Dressing Rooms:
2 Small Dressing Rooms seat 8 each (with attached showers and toilets)
2 Large Dressing Rooms seat 16 each (showers and toilets down the hall)

Dressing Rooms are shared with others theatres in the Hopkins Center. Please contact the Production Manager to ensure availability

Dressing rooms are located one floor below stage level off stage right, accessible by stairs stage right or by elevator or stairs from stage left.

All dressing rooms contain tables, chairs, mirrors and are well-lit. Proper heating is maintained.

*There are no non-public restrooms on stage level.

Wardrobe:
1 Washer, 1 Dryer.
Access to an additional washer and dryer may be possible if pre-arranged.
Laundry Location: SR, down one floor, on Dressing Room level.
There is no designated wardrobe room but one of the 4 dressing rooms can be used.

Storage Space:
There is limited space for storage of empties as the scene shop off stage left is in use during the day by the Theater Department.

Rehearsal Space:
Theater Department Rehearsal Room may be available around class schedule if pre-arranged.
The room is app. 30’W x 25’D with a Marley floor over a tile floor and mirrors on one wall.
Straus Dance Studio in Alumni Gym - limited availability around class schedule if pre-arranged.

Labor:
The Hopkins Center is an IATSE staffed facility employing Local 919 Stagehands and trained work-study students.
Stage Information

Stage Dimensions
- Height to the Grid Iron: 56’
- Height to the bottom of the lineset (flown out): 50’
- Height to the High Steel: 62’
- Proscenium width: 34’
- Proscenium height: 20’-3”
- Plaster line to back wall: 35’-8”
- Curtain to back wall: 34’-6”
- Front edge of apron to plaster line: 1’-11”
- Plaster line to edge of Cyc pit: 27’-11”
- Plaster line to Cyc pit hinge: 28’-11”
  (protrudes approx. 1/2” out of floor)
- Plaster line to last full stage working batten: 30’-6”

Wing space:
  - Stage Right: 15’
  - Stage Left: 16’-6”+ (see plan)

Balcony Rail to plaster line: 39’
Projection Booth to plaster line: 67’ at 23°
Height of stage: 2’-8 ½”

Fly System:
- Number of useable linesets: 40
- Single purchase counterweight: 39
- Electric Winch: 1 (1st LX)

Lineset capacity
- Counterweight: 1500 lbs.
- 1st Electric Winch: 1st- 1600 lbs.
- Lineset high trim: 50’

Lineset Lengths
- 1 - 4: 52’
- 5 - 39: 56’
- 40: 53’ (cyc)

1st electric is a double batten on a winch (permanent)

House Curtain: Red Velour operates as guillotine or traveler; operated from SR stage floor. House curtain is not counted as a usable lineset.

Orchestra Pit:
Mechanical lift divided in to 3 sections that can access the dressing room hallways, and be raised to orchestra, seating, stage or stepped level.
Load capacity:
  - Lifting: 50lbs/sq.ft.
  - Sustained: 150lbs/sq.ft.
Max Lift capacity:
  - Lift 1 & 3: 7,000lbs
  - Lift 2: 10,000lbs
Dimensions: Each section is 13’ at its widest point, and 10’-12’ at its deepest. See link to drawing below for specifics.

Stage Floor:
Black marine linoleum floor over plywood with 4’x4’ trap sections Load capacity 150lbs/sq. ft. Harlequin/Rosco (Marley) dance floor available in black, white and grey

Marley dance floor:

Harlequin Cascade
5 Rolls (Black)
#1 (Apron) 79” x 37’ 2”
#2,3,4 (Mid) 79” x 46’ 7”
#5 (Upstage) 79” x 50’

Harlequin Reversible
5 Rolls (White/Black)
#1 (Apron) 79” x 36’
#2,3,4 (Mid) 79” x 46’ 7”
#5 (Upstage) 79” x 45’

Rosco Marley used as subfloor
6 Full Rolls (Black/Grey)
#1 (Apron) 63” x 36’
#2,3,4,5,6 63” x ~46’ (lengths vary +/- 4”)
2 Half Rolls (Black/Grey)
#1,2 (Wings) 63” x ~24’

Masking Inventory:  (See Lineset Schedule for Rep Hang - available in Excel)
(12) Legs 25’ H x 12’ W flat black velour, no fullness
(6) Borders 12’ H x 56’ W flat black velour, no fullness
(2) Half-Stage Blackout 25’ H x 29’6” W flat black velour, no fullness
(1) Full-Stage Blackout 25’ H x 56’ W flat black velour, no fullness
(1) Black scrim 25’ H x 40’ W
(1) White scrim 30’ H x 60’ W
(1) Cyclorama 30’ H x 56’ W grey, filled leno, muslin backing

Ladders and Lifts
The Moore Theater has a stock of 6’, 10’, and 12’ A-frame ladders.

There are two Genie AWP30S lifts available:
  29’6” max platform height
  35’6” max working height

**Due to safety regulations the lift may not be moved while elevated.

Electrics / Lighting System

Company Switch:
Location: Offstage Left, within 50’ of center stage
Amperage: 400A/3 phase
*We require a house electrician to tie into this power source.
Additional power: 50A single phase receptacles - 1 each downstage left and downstage right

Dimmers:
Permanently installed:
Type: ETC Sensor3
Number of dimmers: 282 @ 2.4kw; 2 @ 6kw
Number of circuits: 284
Additional dimmers located Mid SL:
Type: ETC Sensor Dimmers
Number of dimmers: 72 dimmers; 3x 24 /2.4k dimmer packs
Number of circuits: 72 circuits; 4x 6 circuit socapex per pack

Lighting Console:
Type: ETC EOS TI 4k with 2x10 Fader Wing
Location: rear of auditorium house left, orchestra level, in booth
ETC Puck Designer desk available

Front of House Lighting Positions:
Wire Grid
Distance from plaster line: upstage side, 2’-6” downstage side 7’-3”
Height above stage level: 23’-3” (hanging positions are at 25’ and 26’-9”)
Number of circuits: 20 (3 pin stage)
Near Catwalk
Distance from plaster line: 25’-4”
Height above stage level: 33’-10”
Number of circuits: 18 (3 pin stage)
Far Catwalk
Distance from plaster line: 42’-4”
Height above stage level: 35’-1”
Number of circuits: 18 (3 pin stage)
House Side Slots
2 House box boom positions integrated into side stages
Distance from plaster line: 20’ from plaster line
Number of circuits: 8 circuits each (3 pin stage)
2 located in balcony
Distance from plaster line: 26’ from plaster line
Number of circuits: 4 circuits each (3 pin stage)
Balcony Rail:
Distance from plaster line: 39’
Distance to LS-40 (Cyc): 72’
Height above stage level: 12’-9”
Width of hanging area: 23’
Number of different circuits: 4 (3 pin stage)
Downstage and Onstage Lighting Positions:

Proscenium Slot or Box Booms:
Just DS of plaster line SL and SR at 38’-6” from center line
Number of different circuits: 8 each (3 pin stage)
2 wall-mounted circuit boxes available on proscenium wall SL and SR:
Number of different circuits: 8 each (3 pin stage)

Onstage Electric Pipes:
First Electric - FIXED AND MOTORIZED
Distance from Proscenium: 3’
Number of different circuits: 20 (3 pin stage)
All other electrics pipes flexible pending lineset configuration
Typically Second, Third, Fourth and Fifth Electrics
with MultBoxes dropped from the midrail

Onstage Boom Options:
Boom pipe and bases:
(10) 16’-18’ high boom pipes, set as required
(12) 50lb. boom bases
Circuiting Options: Multboxes down from midrail or floor pockets
Floor pocket location: 4 per side, 4 circuits each, 23’ off center line,
at 8’-7”, 13’-7”, 18’-7” and 22’-7” upstage from plaster line

**Fogger/Hazer/Miscellaneous Inventory:**
- Rosco 1500 Fogger
- Rosco 3000 Fogger (DMX)
- MDG Atmosphere Hazer (DMX)
- (4) Rosco RevPro gobo rotators
- (1) 12” mirror ball
- (2) Diversitronics DK-2000 Dome Strobes
- (1) Diversitronics Mark II Strobe

**Lighting Accessories:**
- Barndoors
- Top hats
- Iris
- Gobo holders
- Side arms
- Twofers

**Please contact Production for exact numbers at time of use.**

**Cyclorama Lighting:**
- Cyc pit available (pit covered when not in use).

**House Lights:**
- House lights are fully dimmable and controlled either backstage right or from the light booth via control station or through the lighting console.
Sound System

Console:
Yamaha PM5DRH Digital console

Additional Mixing Consoles: may be available. (check with Production Manager)
Yamaha LS9-16
Mackie 1202
Mackie 24.8

Speakers:
2 Meyer UPA-1P (Mains L/R Main Floor)
2 Meyer UPJunior (Mains L/R Balcony Fill)
1 Meyer UPA-1P (Center Balcony Fill)
2 Meyer USW-1P (Subs flown at Proscenium L/R)
6 EAW KF-300 satellite/stage monitor cabinets
8 EAW JF-80Z satellite/stage monitor cabinets
6 Meyer MM4-XP with 2 MPS-488HP Power Supply for Front Fills/satellite
2 Meyer MM4-XP with MPS-481 power supplies

Stage Amplifiers:
2 Crest 7001
4 QSC MX-1500
2 QSC MX-700
1 QSC 4000

Processing/Analyzing:
Meyer Gallileo Galaxy 816
Smaart Software v8
Earthworks S30 mic with FR-SC2I2 interface

Digital Sound Editing:
Macbook Pro 15
Software/Applications: QLab, Logic
Hardware Interface: Alesis AI-3, MOTU AVB Switch, MOTU 16A I/O

Source Devices:
2 Sony CDPD- 11 CD players
1 iMac
1 Macbook Pro 15

Lines & Connectors:
Mic lines are downstage left and right via two 12x4 snakes to sound booth and are equipped with transformer splits for onstage monitor mix. Ample mic and speaker cables are available.

Headset System/ Booth Monitors:
Type: 10 station, 4 channel Clearcom base station/matrix
Base Station Location: Can be located at the stage manager’s panel DSR or in the light booth

Wireless Com (check with production manager for availability)
Digital Clearcom wireless headset system with 5 belt packs (4 more may be available)

Dressing Rooms, Green Room, and Scene Shop are all equipped with monitor/call boxes.
Booth monitoring systems consist of 1 AKG condenser mic hung over the stage with a Mic preamp to a Rolls RM424 Four Zone Mixer. Mixer sends feeds to the light, sound and follow spot booths. Each booth has a Yamaha MSP2 2 way powered speaker with adjustable volume.

Video Monitoring:
IR camera on FOH balcony rail with single 9” monitor
-Monitor can be cabled to a Stage Manager position in wing, booth, or house tech table

Recording:
2 Tascam TASSCDR200 Solid State and CD Digital Audio Recorder
Both recorders are rack mounted in a mobile SKB rack with a Furman power conditioner and can be transported for mobile recording. Rack also contains (2) XLR-F to 1/4” cables (2) XLR Y cables to split inputs to both recorders. A console is needed to complete the package. See console inventory.
