

# The arts at Dartmouth are inspiring and expansive.

Meet folks. Ask questions. Dive in.

At Explore the Arts, you'll find a table with info and arts folks connected to all these student opportunities.

**Find out all about our 2021/22 Season of adventurous resident and visiting artists**, including jazz legend Terence Blanchard, the powerful Urban Bush Women, mind-bending dance company MOMIX, the titillating Joseph Keckler and the Queen of African music Angélique Kidjo. Discover the different ways you can connect with and learn from these artists throughout the year.

**Let Hop Film transport you with great movies every weekend**, and join the Film Society to help bring diverse, unique films to the Hop.

**Perform with your friends in Ensembles led by pros.** Meet all of the ensemble directors—find out about auditions.

See what's cooking in our **student-only Thursday Night Live series**. Driven by students like you.

Arts are at the core of the liberal arts here at Dartmouth. Kick off your creative education with the Academic Departments of **Theater, Music, Film & Media Studies and Studio Art**.

Get crafty and hone your skills in our Student Workshops. Ask about making projects in **wood, metal and clay**—no experience needed!

**Make money, build your resume, develop a career in the creative sector.**

Find job opportunities and info on the Hop Fellows program at the Work at the Hop table. And learn how you can get a behind-the-scenes perspective of the arts through the group mentorship experience The Hop Connections Program.
